NEW ORLEANS, LA., HAVE on hand a large assortment of the latest improved COOKING STOVES, in-cluding the celebrated "Charter Oak;" also, country Hollowware, House Furnishing Goods Tinware, etc. Having bought our stock during the time

sales of Cotton and Western Produce. All or. FASSMANN'S PATENT IRON TIES! For Cotton Bales.

Country orders solicited. sep16d&w3m.

UNITED STATES PATENT, APRIL, 1865. N FASSMAN'S PATENT IRON TIES, the hoop for the button is punched with two oles at one end and fifteen at the other. The band has only to be drawn tight, the holes in the two ends to be brought together, the two bole end on top-and the button inserved. One button will answer, No. 190 Gravier St., New Orleans, La. but it is better to insert two.

Defen to I. B. Gaines "President Citizens" With the Buckle Tie, one end of the hoop is fastened to one section of the Buckle, the other end is inserted in the other section, and simply shoved through it under the other end as long as there is any slack. A bite on the buckle holds it securely to

The hoers are painted to prevent rust, and cut in lengths of 10, 10g and 1 feet. Ten feet are most generally used, but 10g and 11 are sometimes required for large bales. The buckles are fastened to the hoops, the buttons will be put up in small boxes. The Weight is About 10 Pounds to the Bale of Cotton.

The advantages of iron over rope for baling cotton are now universally acknowledged. It holds the bale in a much smaller compass; is applied and fastened with as much facility, both in the country pressing and the re-compressing at the sea ports; lessens immensely the risk from five; is stronger, and its strength is not impaired by time and exposure as is that of rope. This last advantage has beed st ikingly manifested during the w.r. Thousands of bales of Cotton have been lost by the rotting and breaking of Rope which could have been preserved if Iron boops had been used. In addition to this, it can be furnished cheaper than Rope. The derangement of labor in the hemp growing states derangement of labor in the hemp growing states has reduced the supply of hemp to such an extent as to cause prices to rule unprecedently high: indeed a sufficiency for baling a moderate cotton crop, cannot be relied on at any price. I have arranged for the importation of a large quantity of the best English Iron, and have made arrangements with Messrs. Chambers & Latting for the sale and delivery of my Ties.

The undersigned, Fire Warden and Fire Inspec tor of the New Orleans Insurance Companies, are of opinion that the Iron Tie affords greater protection against loss in case of fire than the old style of baling with rope.

J. YOUENES, File Warden, JOHN ADAMS, Fire Inspector.

I concur in the above,
ALFRED BELANGER,
Ex-Chief Engineer, Fire Department. SHIP REFUGE, NEW ORLEANS, July 7, 1859.

H. Fassmann, Esq., Orleans Cotion Press: SIR: In January last I received from your Press 1089 bales of cotton, of which about 1000 were recom-pressed and bound with your new "Iron Tie," I can safely affirm that the cotton so bound was received in better order than it generally comes from the Presses, that it stowed better, and enabled the the Presses, that it stowed better, and enabled the ship to carry more than on any previous voyage. The cotton when discharged from the ship in Liverpool, was in better order than the rope bound cetton, it is highly preferable for a ground tier, as dampness from the ballast has no effect upon it, for it is well known by pract cal men that damp ess will rot the rope bound. I can confidently recommend your "Iron Tie," as I took this lot for an experiment and carefully watched it, both in leading and disand carefully watched it both in loading and discharging.

I am Sir, Yours Respectfully, JOHN HOWARD, Master, CHAMBERS & LATTING.

Cotton Factors, Agents for Fassmann's Iron Ties and Dealers in Bagging, Rope and Twine, 6m. jy12d&w NEW ORLEANS.

CRANE, BREED & CO., NEW ORLEANS, LA., MANUFATURERS OF Hearses and Metalic Burial Cases and Caskets.

WOULD call the attention of undertakers, and the public, to their large variety of Hearses of the most approved patterns, and of the finest finish—unrivaled for elegance, utility and durability. We are constantly improving the style and construction of our Metallic Burial Cases. Our "New Plain Case," patented December 12, 1865, combines all the most recent and val-

uable improvements, and is more complete than any Burial case ever before invented. Our Metallic Burial Casket, in its simplicity of design, and its freedom from all associations of grief, is unsurpassed. It is almost entirely covered by the best polished plate glass. Its finish is that of the finest rosewood. The Ornamental Casket, with its heavy and elaborately. wrought emblematical ornaments, their bright silver contrasting with the dark polished ground work, is of striking and appropriate

Over wooden coffins, these Burial Cases and Cakets possess many important advantages. They protect from water, vermin, and other intrusion, answering for generations every necessary purpose of a vault. Removal from the original place of burial—should it ever be desired—can easily be accomplished. Bodies can be preserved for days or weeks, awaiting the arrival of absent friends. Removal to any part of the globe, at any season of the year, is entirely practicable—The surest safeguard is effected against contagious diseases. Directions accompany every Burial Case and

Casket, in reference to closing, and should be strictly followed. Address, aug7-6md&w. CRANE, BREED & CO., 90 Magazine-st, N O
